S.N. 107

Letter No. C.W.M. 573, dated the 23rd December, 1929, from the Municipal Executive Engineer, Civil and Military Station, Bangalore.

Reference papers have been obtained from the Secretary's table on the 9th January, 1930.

Please see S.N. 87 and 101 in which an estimate for Rs. 3374/- for constructing a compound wall for the Government Training school has been sanctioned by the Government of India. This amount has been provided in the current year's Assigned Tract budget estimates. The sum of Rs. 3374 is made up of the following:-

		Rs.
(a)	Estimated cost of compound wall...	2,756
(b)	Contingencies, Supervision charges and provision of culverts... ...	618
		3,374

The Municipal Executive Engineer has forwarded a statement showing the tenders received for the above work. The tender of Mr. E.Lewis for the compound wall which is lowest amounts to Rs. 3312 i.e. Rs. 556/- more than the estimate sanctioned by the Government of India. He wants four months' time. The tender may perhaps be accepted and the excess viz Rs.556/- plus Rs. 70/- being 12½% supervision charges on the excess may be paid from savings in the next year's budget estimates under the five-year programme. The Municipal Executive Engineer may also be asked to limit the expenditure during the current year to Rs. 3,374/- only.

Draft submitted for approval.

The Chief Engineer, C.D. has not sent us a fresh estimate as the Rs.2500 is less by 674 as compared with this estimate. Hence there is no delay in this case.

The cost of this wall seems to be very high. Would I of S kindly consider whether something less expensive would not be equally good - for example , an iron ~~rrailw~~ railing like that to be put up round the new Residency Office, of which a specimen section has been built. If necessary we might inspect the site with M.E.

Blackpalli where the Training School for teachers is situated is locality full of "bedmashes"; & the school has endless trouble from them. The Higher Elementary School next door has a small wall round it, but it might as well have nothing for all the effect it has in keeping out undesirables after school-hours. The Training School with an iron-railing round it, would, I feel, be in exactly the same position.

There is one other point to be considered. The T.S. stands on a very busy bazaar road — at a corner — & the noise from traffic makes things difficult. A good high wall would very greatly deaden the noise. I have been often over this question, alone & with Mr Murphy, & I should be glad if the local Govt would sanction this scheme. It costs a little more, but it will be money well spent. 6/2/30.

assuming that this is sanctioned, I suppose that urgent instruction be given to the M.E. that at any rate part of the wall may be built before 31st March. If some of the money for the scheme is not drawn before that date, the grant will lapse, & fresh application will have to be made

SIR,

Constructing compound wall for the Government Training School on Blackpally maidan.

I have the honour to invite a reference to this office letter No.C.W.M.573 dated the 23rd December 1929 forwarding the tenders received for the above work and to request the favour of an early reply thereto, as there is very little time left to complete the work before the close of the official year.

(Compound wall for the school).

In continuation of this office No. 214/29, dated the 26th December, 1929, I have the honour to add that the work of the school is getting day by day more difficult for want of a compound wall around it. The longer it is left exposed without the wall, the stronger seems to become the "Claim" as it were of the intruders upon it. Often they gather in groups in the verandah and talk so loudly that it becomes very inconvenient to carry on the school work. Attempts to dislodge them invariably result in unpleasant scenes. Out of school-hours, the watchman too, finds it difficult to keep them away. In fact with their numbers and their threatening attitude, he has to submit to them allowing them to do as they like.

The condition of the school premises is still worse. It is impossible to exercise any control over the public there, with the result it is freely used to commit all sorts of nuisance. It is found difficult to keep the premises clean and the offensive smell that gets into the building from outside renders the building insanitary and, at times, the prolonged stay within it, intolerable.

Under the circumstances, I pray that a representation of the above may kindly be made to the Executive Engineer, and if necessary to the Hon'ble the Resident to see that the work of the compound wall, already sanctioned, may immediately be taken on hand.

Mr. C. S. Naidu, advocate, who has filed a Vakalat for the petitioners, wants to make some personal representations on their behalf and desires to know if he can see the Resident personally. There does not appear to be any necessity for this.

It may therefore kindly be stated how the amounts sanctioned in the proceedings quoted above have been arrived at.

Not received here but please see para 2 of D.O.No.11 dtd. 8.9.30

Please say whether the budget provided for the net expenditure after allowing for the unspent balance in the hands of the Municipality.

The favour of an urgent reply is requested as the President Municipal Commission has presented a bill for payment.

To

Sir,

Savings in Five Year Programme expenditure.

S. Nos. 128 and 130
F) E.

With reference to your No. 580/83-26, dated 28th January 1931, and your urgent letter No.... dated.... received last evening, I have the honour to state that provision has been made for two schools to be opened during 1931-32: one boys' school at Rs. 2,800 and one girls' school at Rs. 1,000. The opening of these schools may be suspended and a sum of Rs. 3,800 saved The abolition of the Night Schools will effect in a saving of Rs. 750. A provision of Rs. 240 has been made for the Lady Superintendent and this can be saved as the Municipal Commission contemplates the appointment of a Lady Superintendent from its own funds.

2. Under building grants, the Municipal Commission has so far been given a grant of Rs. 49,015. The amount spent by the Commission to date is Rs. 38,400. This leaves a balance of Rs. 10,975. Estimates have been prepared for the construction of two more girls' schools. One of these has been started and will be completed within a month or two. This will cost Rs. 11,750. I regard the building of the second of these school (to cost about Rs. 9,000) as essential. The school at present is in a poor rented building and the locality will be greatly improved by the building of a new school. Rs. 2,000 are requir

for the extension to Ookadpalyam Higher Elementary school. This should be done this year. Thus the further expenditure which I regard as essential is Rs. 22,750. This must be met from the balance of the grants paid up to date (Rs. 10,975) and by spending Rs. 11,775 from the allotment of Rs. 20,600 during 1931-32. Thus the budget allotment might be reduced by approximately Rs. 9,000.

3. A provision of Rs. 9,000 has been made for grants-in-aid to non-Government Primary schools for 1931-32, but the current year's allotment of Rs. 8,000 may be continued, thus making a saving of Rs. 1,000.

4. If the above proposals are approved, the total savings will amount to Rs. 14,790 as shown below:-

(a) (b) (c)	Opening of new municipal schools... abolition of Night schools.. .. Stoppage of payment to Lady Superintendent..	Rs. 3,800 750 240
(d)	Savings under construction of school buildings. ..	9,000
(e)	" under grants-in-aid to non-Govt. Primary schools.. ..	1,000
	Total..	14,790.

5. I am writing to the President, Municipal Commission, Bangalore, asking that the Night Schools may be closed with effect from 15-2-1931. This will effect a saving of only Rs. 25 during the current year, as the expenditure for the month of March 1931 will be drawn in April 1931.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

SIR,

Subject:- Savings in the Five Year Programme.
Expenditure.

S. Ns. 128 and 130

With reference to your No.580/83-1926, dated the 28th January 1931 and your urgent letter No. 479/83-1926 dated 3-2-31 received on the 4th February 1931, I have the honour to state that in view of the urgency of the matter and the extreme necessity pointed out, of curtailing expenditure, I find no other alternative but to support the recommendation made by the Inspector of Schools, Bangalore, in his No.418/3-26, dated the 5th February 1931, except in regard to the following:-

S. N. 132

1. The suspension of a Boys' School to be opened early next year at a cost of Rs.2,800/-.
2. The suspension of a Mahommedan Girls' School to be opened at Ulsoor at a cost of Rs.1,000/- (for 6 months only), and
3. The removal of the provision made for the Lady Superintendent by debitting the cost to Municipal funds.

(2) As regards item No.i, we have already advanced to the stage at which we can hardly go back. The School to be opened is one at Puduparacherry and the Municipal Commission have in their proceedings No.35, dated the 30th January 1931 resolved that the C.I.G. Mission School at Puduparacherry be taken over by them. This was done on the recommendation of the Inspector of Schools. As an alternative, I think, it may be possible to omit the provision of Rs.1,150/- (for half year) made in the budget for 1931-32 for opening a Hindu Boys' School in Bangalore Cantonment.

(3). As regards item No.2, the Municipal Commission in their proceedings No.8, dated the 28th March 1930, resolved that a Mahommedan Girls' School be provided for in Ulsoor, as it is

P.T.O....

indispensable in that locality. I am of opinion that this item cannot be suspended.

(4). As regards item No.3, I invite a reference to my letter No.Gt.55/30, dated the 4th December 1930, in which I have already pointed out that the Municipal Commission never contemplated to meet the pay of the Lady Superintendent from their own funds.

S.N.26
214-29.

(5). I have to point out that I have not been able to consult the Commission in this matter, owing to the urgency of the reference, but I urge that should circumstances permit, these grants should be reallotted subsequently.
